Difference between MS-Word 2003 and MS-Word 2007

When formatting a document such as a resume, MS Word often inserts a large gap in the text--sometimes as much as half a page of blank space. When I try to delete the gap, moving the cursor from the continued text after the gap, it skips over the gap as if it's not even there, and deletes text from the previous point in the document before the gap.

macos - How to get rid of large gaps in text in MS Word ...
