Comprehensive and Useful Tools. The Match Characteristics Questionnaire (MCQ) and the Youth Mentoring Survey (YMS) are the most comprehensive match quality surveys with published validity evidence. Both offer nuanced measures of relationship quality and match structure. The MCQ also measures the influence of external factors on the match.

Mentoring Surveys

A Queue is a linear structure which follows a particular order in which the operations are performed. The order is First In First Out (FIFO). A good example of a queue is any queue of consumers for a resource where the consumer that came first is served first. The difference between stacks and ...

Queue Data Structure - GeeksforGeeks

An array is a collection of items stored at contiguous memory locations. The idea is to store multiple items of the same type together. This makes it easier to calculate the position of each element by simply adding an offset to a base value, i.e., the memory location of the first element of the ...
