Hi everyone! This is my first time posting, so hopefully I am posting this question in the correct section. I am trying to make a word document office directory using two sources of information: an excel spreadsheet within information like "First Name", "Last Name" and "Department" and an image of each person. I'm having two problems that I am hoping someone might have suggestions for!

QUESTION Why must Dwyer pressure switches be mounted with the diaphragm in the vertical plane?. ANSWER In other than a vertical plane, the diaphragm can sag and cause a shift in set-point or a change in the adjustable set-point range. The switch may even fail to reset at the minimum set-points. This is the same phenomena that causes inaccuracy in Magnehelic® and Capsuhelic® gages when ...
